KYOTO/OSAKA 2011

The theme for the Kyoto/Osaka Conference was "Innovation".

Innovative business and transaction structures that take into account taxation, international trade and other aspects of cross-border investment are constantly evolving.

We in CBIC foresee substantial opportunities for the exchange of experience and skills in the context of interesting conference program topics in cooperation with other IPBA committees.

CBIC was involved in the planning of a number of programs such as:

1. "INNOVATIVE CROSS-BORDER INVESTMENT TECHNIQUES - What's Happening and Future Directions" - A Joint Session with Taxation Committee;

2. "M&A Negotiation Trends and Practices in U.S. and Asian Private Target, Public Target and LBO Deals" (Part 2) - A Sequel to Original Program in IPBA Singapore Conference; and

3. "Innovative Due Diligence Techniques - Is That Possible and How Can We Improve?"
