

The Inter-Pacific Bar Association invites you to a special webinar:

The Changing Landscape of International Insolvency Law

January 19, 2021
11:00AM CET • 6:00PM CST
via Zoom

Insolvency is never the ultimate goal when establishing a business, but it is a reality that is expected to happen more often in all business sectors over the coming months due to the effects of the global pandemic. Are you prepared to serve your international clients with knowledge of the latest regulations in your jurisdiction and beyond?

For this IPBA Webinar, our panel of speakers from the China, France, Germany, India, and the UK will examine the intricacies of cross-border insolvency. What changes have been implemented to help ease the negative impact of insolvency? If a company becomes insolvent in Jurisdiction A, is it recognized in Jurisdictions B and C? Do the laws in one jurisdiction carry over to another where the client has assets?

Join us for this important discussion!
