

IPBA Regional Conference and Cocktail Reception

Vietnam: The New Investment Terminus

Friday, 6 September 2024

2:00pm – 5:30pm

New World Hotel, Ho Chi Minh City

Amidst rising geopolitical tensions between two dominant nations, the USA and China, Vietnam has risen as a blooming lotus offering a haven for businesses seeking stability and growth. Vietnam, among other South-East Asian countries is poised as a terminal economy – a central draw for international investment with its robust economic development and favourable investment policies. As Sun Tzu wisely noted, "In the midst of chaos, there is also opportunity." This seminar will delve into the opportunities and challenges of investing in Vietnam and the value chain and strategic advantages of relocating to Vietnam, positioning it as a pivotal hub for investors and companies looking to diversify and expand their global operations.
