

The Inter-Pacific Bar Association invites you to the following webinar:

# Digital Battlefields: Navigating Legal, Regulatory, and Ethical Frontiers

25 March • 0:00 - 01:00 LA • 12:30 - 13:30 India • 16:00 - 17:00 Tokyo/Seoul

The rise of cyber warfare presents unprecedented legal, regulatory and ethical challenges for businesses, governments, and individuals. This webinar will explore the complexities of cyber-attacks, the legal framework surrounding cyber warfare, regulatory compliance, ethical considerations, cross-border considerations and best practices for mitigation. With contributions from distinguished experts in law, cybersecurity, and policymaking, attendees will gain insights into:

- Understanding the sophistication of cyber warfare attacks and their legal implications
- Identifying best practices to mitigate liability and regulatory penalties for system breaches
- Analyzing the role of AI in cyber warfare and legal compliance
- Evaluating the role of state-actors and international regulations on cyber warfare
- Examining the role and impact of private security solutions in cyber defense
- Exploring post-systems attack legal and reporting requirements
